Adding Value...

DataTech Solutions today announced that it has completed its latest software utility. "The automotive shop management system space is very crowded" commented Michael Risich DataTech Solutions CTO. "We do not want to compete in this space, but deliver real value to the shops that need it the most."

With the number of SMS (Shop Management System) to choose from in the 100's, a shop owner has a difficult decision to make. To make it more complicated some Applications are no longer supported or being developed. Mitchell's Manager and Snap-On's ShopKey are two systems that are widely adopted. Adding values to their solution is our goal; we do this by developing a solution to migrate your data to their management system.

Conversion Modules	Conversion Deliverables
Customers	<ul style="list-style-type: none"> • Names • Address • Phone Numbers • Number of Visits • Total Dollars Spent
Vehicle	<ul style="list-style-type: none"> • Year, Make, Model • License • Vehicle Last In Date • Total Visit Count • Last In Odometer
History Invoices	<ul style="list-style-type: none"> • Invoice Date • Odometer Readings • Total Dollars • Parts • Labor
Payments	<ul style="list-style-type: none"> • How the transaction was paid for
Recommendations	<ul style="list-style-type: none"> • Noted items on past invoices
